

Look at me

Turn your face
towards the person
with hearing loss so
they can see your lip
movements.

Speak clearly

Not too slowly,
and use normal lip
movements, facial
expressions and
gestures.

Don't shout

Keep your
voice down:
it's uncomfortable
for a hearing aid
user if you shout.

Are You Deaf Aware?

Action on Hearing Loss is the UK's largest charity supporting people who are deaf or have hearing loss. We give support and care, develop technology and treatments, and campaign for equality. We rely on donations to continue our vital work.
